Montfort Matriculation Hr Sec School, Tindivanam, TN

Grade: **84%**

## PROJECTS at INFONOVUM

### Project 1: ARC - Analytics, Reporting, and Catalog.

- Description: Analytics is an interactive web app that allows admin users to create dynamic reports by dragging and dropping charts, tables, and text cards.
- Technologies Used:** Java, React Js , Spring Boot , AJAX, PLSQL, AnyChart.js library.

### Project 2: PES - Private Equity Services

- Incentive tool for Admins who contribute their income to the firm for other investments and get benefits from the return on investments.
- This tool enables admin to track the status of their contribution and returns information through this app.
- Technologies Used:** Java, React Js , Spring Boot , AJAX, PLSQL, AnyChart.js library.

## SELF PROJECTS

### Own Project 1 : User Management App [ React + Spring Boot ]

- Developed a comprehensive user management application integrating table maintenance, image upload with modal viewing, and note-taking functionalities.
- Leveraged React for the frontend and Spring Boot for the backend, employing REST API endpoints and JPA for seamless data interaction.
- **Technologies Used:** Java, Spring Boot, React, REST API, MySQL

### Own Project 2 : Customer Table CRUD App [ JQuery + Spring Boot]

- Engineered a dynamic CRUD (Create, Read, Update, Delete) application for managing customer data, enhanced with intuitive user interface features.
- Utilized Spring Boot framework for the backend logic, combined with jQuery for frontend interactivity and AJAX for asynchronous data retrieval.
- **Technologies Used:** Java, Spring Boot, JQuery, AJAX, REST API, MySQL

### Own Project 3 : Node Image Upload, View and Download App

- Designed and implemented a robust application allowing users to upload, view, and download images, all securely stored in a PostgreSQL database.
- Included a contact form feature facilitating direct communication with users for inquiries and support.
- Also included a contact form for Get in Touch with the Customer.
- **Technologies Used:** NodeJS, Javascript, axios, NodeMailer

### Own Project 4 : Business Website

- Business Web site with Multiple Sections and Contact Form Feature using PHP Mailer which is hosted in Infinityfree.com
- **Technologies Used:** HTML, CSS, Javascript and PHP
